

ONE STOP RENO SHOP

PHOTOGRAPHY BY BONNIE FOX

THE PLACE: Great ideas for your next renovation or new build are showcased at **Our Project Centre by Hanover Rona**. Since it opened two years ago, adjacent to the main Rona store, Our Project Centre has helped hundreds of homeowners with their home projects. In one stop you can bring your kitchen and bathroom visions to life, with a great selection of cabinets, countertops, faucets, sinks, tubs, vanities, hardware and more. In the same space, you can also choose new windows, doors, decks, railings and stone products.

SERVICES: Their staff includes a cabinetmaker, a licensed electrician, a licensed carpenter and a former realtor – all the expertise you need to make the right decisions for your home. Our

Project Centre is more than a retail space; staff can supply and install products as well as handle all the details for a full renovation or addition. All design and on-site measuring is free of charge, too!

WHAT'S HOT: A surprising find in the showroom is the Unique Traditions Furniture line, which offers handcrafted furniture pieces from period homes that will bring character and history into your home. Storeowner Brian Haack says, "Most pieces date from the 1800s onwards and each piece is unique – using doors, mantels, flooring, wainscoting, hinges, tin ceilings, spindles and more."

SEASONAL: Haack says fall is a busy season for completing outdoor projects once the kids are back in school. As the weather

turns from crisp to cold, kitchen and interior renovations will take precedence. This is when popular offerings like Pfister and Kohler faucets, Neptune showers and fixtures, Mr. Marble countertops and shower enclosures take centre stage.

FAVOURITES: "For kitchen and bath, our most popular product is the Decor Cabinet Company line," says Haack. "It's Canadian-made and their fit, finish and versatility, as well as their service level, is over the top." Vinylbilt Windows & Doors are also quality products that customers love.

WHERE: 516 22nd Ave. Hanover, 519.506.1000
