

Jim Anderson and Marguerite Harrison

PARTNERS IN DESIGN

BY TERESA BAERG
PHOTOGRAPHY BY JASON HARTOG

THE PLACE: Andersons Carpet and Home has been a Burlington landmark for nearly 50 years. Originally a carpet store founded by John Anderson in 1964, it has evolved into an interior design and home decorating showroom under the leadership of John's son, Jim. Andersons' reputation is built on the strength of their relationships with their clients. "Relationship first is how my father ran it and how I run it," says Jim. As your interior design partner, they are a trusted advisor on everything home décor. With a beautiful showroom and a full design service, Andersons offers the best of both worlds.

THE STYLE: The showroom offers a wide array of products and services, from carpets and furniture to drapery, paint and reupholstering services. Jim describes their style as eclectic. "We're really a design studio where people come in and are inspired." Many clients don't know where to start when it comes to making changes in their homes. Jim and designer Marguerite Harrison can make suggestions based on photographs or can visit a home to help create a design plan. "We will work with what you have and make it new and fresh," says Jim. With strong relationships with painters, wallpaper hangers and the best in workrooms for drapery and upholstery, clients can rest assured that their home receives the Anderson stamp of quality.

WHAT'S HOT: Clients gravitate to neutral palettes in white and cream or blues and whites in a nautical theme. They also want a pop of colour, whether in a toss pillow, a paint hue, or perhaps in a front entrance. If you find a piece you love but would prefer it in a different colour, size or shape, Andersons can custom order many of their pieces for you.

FAVOURITES: The long-lasting friendships acquired through his relationships at work stand out most for Jim, proof that Andersons offers quality products and quality service, one relationship at a time.
