

FINE FINISHINGS

THE PLACE: Dress up your home with the style, function and beauty that radiates from a beautiful window or door. First founded under the name The Travelling Window Store Corp., the original concept was a mobile showroom that operated as a home-based business. The company quickly expanded to its first retail location in Oakville and changed its name to **Fasada Home Remodelling Co.** Fasada is a Croatian word that means "front elevation of a building or house." Fourteen years later, owner Ivica Jukica and wife Nelli Abzaletdinova manage two Halton locations. They offer a full suite of products, from window coverings to interior and exterior doors and windows. Whether it's a free in-home visit or an installation, their knowledge, experience, and vision beautify the way you look out at the world.

THE STYLE: Ivica says top brands in the industry like Vinylbilt windows, Tru Tech Doors, Eclipse Shutters, Hunter Douglas, Levolor and Garaga Garage Doors not only make the best products, they also have great warranties and after sales service. "It gives peace of mind that you are covered when you make a purchase." With a customer-centric approach, he also adds, "It's our job to make sure your home looks its best, which means you look your best." *Continued on page 36*

Solid Maple, Walnut, Oak & Cherry Since 1981

This wall unit was designed and custom made for one of our many happy clients. Built out of solid maple the right side of this unit hides a walk in pantry. This is just one example of how we think outside of the box to make furniture that is both functional and beautiful. Give us a call to discuss what we can do for you!

WHAT'S HOT: He says the trend in windows is gravitating toward using colour and unique grill designs, while quality fibreglass doors are paired with rich colour, intricate glass and bold hardware. "Shutters are always a hot choice in window coverings, but so are roller shades with options of power and unique customizations such as Swarovski Crystal beading and pulls. A must see!"

FAVOURITES: With so many options, Ivica says picking a favourite is difficult. "I do have a favourite moment that stands out," he says. After a recent door installation for a long-time client, a friend stopped by and remarked on the door and asked if it was from Fasada. "The best part is that the gentleman was not even a customer of Fasada, but was familiar with our work and recognized our quality without experiencing it himself. It was a very proud moment."
